

# Fee for childcare 2021

## Fee level for maximum charge 2021

The fee for preschool, after-school care and pedagogic care is calculated based upon the household's gross income. That means that parents with low incomes have a lower fee, while parents with high incomes have a higher fee. There is a maximum limit for the fee, which is index regulated and changes every year. The highest income that the fee will be based upon in 2021 is 50 340 SEK per month.

## Information

There is an obligation to immediately report changes in income to the municipality. This can be done by *My pages* on [kalmar.se](http://kalmar.se). Kalmar Municipality conducts an annual follow up at the Tax Agency of the family's fee-based income.

## Public preeschool

Beginning in the fall term in which a child reaches 3 years of age, children have the right to public preeschool. At that time, they have a right to free preeschool for 15 hours a week (during decided times). For those who need other times or more than 15 hours, the usual fee will be reduced by 33%.
